

Turbo Air Inc., a FAA Part 145 repair station is seeking an Avionics Technician for our Boise, ID location to maintain in-house and customer aircraft. Our goal is to provide customers with aviation services of the highest quality. We are looking for people who will take pride in being part of our team and also have a high standard and work ethic.

Job Description: Must be experience in Avionics systems testing, troubleshooting, repair and installation as well as aircraft wiring utilizing various hand tools, test equipment and technical reference material including: Current FAA regulations, equipment manufacturer's installation instructions, Turbo Air, Inc. instructions as required in accordance with industry approved standards in a safe, clean and organized work area.

Duties and Responsibilities Include:

- Complete RVSM, 91.411 and 91.413 Inspections.
- Perform Avionics Systems wire harness fabrication and installation including: Marking, routing, tying, lacing, termination of wiring and connectors with industry related hand tools to accessories such as relays, circuit breakers, connectors and switches.
- Perform continuity checks of wiring and systems to ensure proper functionality.
- Adjust, repair or replace defective parts and wiring on Avionics and aircraft systems.
- Disassembly/reassembly of aircraft interior, instrument panels and avionics equipment bays prior to and/or following the installation of wiring and/or repair of avionics systems using proper handling and storage techniques.
- Properly document all removal and installation of aircraft parts and accessories according to Turbo Air procedures.
- Demonstrate an understanding of the Turbo Air work order procedures and properly document work using appropriate accepted/approved data references.
- Perform other related duties as assigned by management.

Requirements:

- Must be able to read and understand English
- High School graduate or equivalent
- Four years Avionics or electronics related experience required
- Two years minimum avionics installation experience preferred
- Must be a U.S. Citizen or Naturalized U.S. Citizen
- Must pass a DOT/FAA Pre-employment Drug Screen
- Must clear a 10-year background check with no felonies
- Valid driver's license and acceptable driving record

Physical requirements: Must be able to routinely lift 50 lbs., read small print, identify colors, tolerate repetitive motion, standing, walking, bending, kneeling, stooping, crouching, crawling, climbing, sitting and perform work in confined spaces and heights above four feet. Tolerate products/materials associated with component maintenance.

Job Type: Full-Time

Location: Boise, ID

Pay: Hourly and excellent benefit packages.
